Attorney Docket No.	MEWE-014
Confirmation No.	2902
First Named Inventor	JACKSON, STEPHEN PHILIP
Application Number	09/936,956
Filing Date	December 17, 2001

Title:	"ASSAYS, METHODS AND MEANS"

Sir:

This amendment is responsive to the Office Action dated July 1, 2004 for which a one-month period for response was given.

**REMARKS**

In response to the Examiner's restriction requirement, Applicants elect the invention of Group I, Claims 38-40, 42 and 49-53, with traverse. In response to the species requirement, Applicants elect the Rad53 FHA1 domain of SEQ ID NO: 19. All of claims 38 to 54 are readable onto this elected species.

Applicants respectfully request rejoinder of the restricted groups. Rule 13.1 PCT states: 'The international application shall relate to one invention only or to a group of inventions so linked as to form a single general inventive concept'.

All the present claims fall within a single inventive concept (as evidenced by the presence of the same or a corresponding special technical feature) as defined by Rule 13 PCT.

Rule 13.2 PCT first sentence states:

*'Where a group of inventions is claimed in one and the same international application, the requirement of unity of invention referred to in Rule 13.1 PCT shall be fulfilled only when there is a technical relationship among those inventions involving one or more of the same or corresponding technical features'.*

Rule 13.2 PCT second sentence states:

*'The expression "special technical features" shall mean those technical features that define a contribution which each of the claimed inventions considered as a whole, makes over the prior art'.*

Thus, where there exists the same or a corresponding feature that defines the contribution made by the invention over the prior art as defined by Rule 13.2 PCT second sentence, there exists a single inventive concept that confers unity of invention under Rule 13.1 PCT.
